i tink the book was exellent.i also think that matt christopher is a great auther.befor i read at the plate with mo vaughn i read on the court with michael jordan.i also thought that book was great.the thing i like about these books is that is tells all about there lives and how and what they had to do to get into the pro's. it also tells about how they didnt give up.i think u should read this book and read on the court with micheal jordan.

It tells you about Mo Vaughn from his childhood and before, up to 1995. It tells you a lot of interesting facts about Mo Vaughn, besides those facts everybody knows. He tells you a little about Vaughn's father, Leroy Vaughn. It lets you know that even a future MVP has to struggle to stay in the major leagues.

This book was great. It was adventure to read this book and the photos gave me a good vision of

what happened in the book. I think it is a great book to read for baseball fans especially and all other kids. Also, it shows a lot about his life, more than just Mo's baseball skills. But, I didn't rate it 5 stars because there were some bad things. I think the ending is really bad because it doesn't really conclude the story. Also, I think the story was too short, I had read it in 3 hours even though I am a fast reader. But, overall it was a decent book.

This book really shows how Mo Vaughn's childhood was, with lots of little stories about his life. It has great pictures and it really tells a lot. It's a great book for kids because it's easy to understand.
