Musical Math: Volume 1 CD

Synopsis

Musical Math helps kids learn the vocabulary associated with many primary math concepts, including: counting to 100, sorting, patterning, comparing sets (more, less, and equal), skip counting, coin recognition, estimation, addition, and subtraction. The songs are short, fun, and catchy. Many of the videos and song titles show visual elements that reinforce the concept along with the numeric word counts and examples. Concepts covered are: 1-100, I Can Sort, Position Words, More, Less, Equal, AB Pattern, ABC Pattern, AAB Pattern, What Comes Next?, Penny, Nickel, Dime, Quarter, Estimate, Count By 10's, Count by 2's, Count by 5's, Sphere, Cube, Cone, Addition, Addition Doubles, $5 + 2$, $2 + 3$, $2 + 4$, $3 + 4$, $5 + 3$, $6 + 3$, $6 + 4$, Anything Plus Zero, Mix It Up, Subtraction, Bonus Track: Alphabet Action Song. PLEASE NOTE: These songs are intentionally short to fit the attention span of the average 3-6 year old child! (Many songs are less than one minute long.) They are written to get straight to point, state it in a way that is simple enough for young children to remember, and then move on to the next lesson. That way, if your child's attention span is only five minutes, he or she should be able to learn the concepts presented in 6-8 songs in just one sitting. With repeated play, children should be able to learn ALL of the concepts in the songs quite quickly!

Customer Reviews

My 4 year old daughter is starting kindergarten soon so I wanted to make sure she had a head start. I play it every night at bath time and in her room as background noise during the weekend. She doesn't even realize she is learning and actually dances around to the music. missing one star due

to the fact that some of the songs are a bit fast and therefore require a little extra attention to fully understand... remember she's only 4

Songs are catchy but annoying after a while. They are super short; some only a few seconds long. Doesn't seem to bother kids at all and they enjoy the cd very much. Favorite song is counting by 2s hop like a bunny.

Awesome! My kids (2 and 3) LOVE these songs, my daughter didn't properly count to 20 before, and after just 2 weeks listening in the car, she easily counts to 100. Both with the song and without, and my son is already into the 20s. More than that they love the songs and ask for them every time we get in the car. I don't think you can go wrong with this CD, I recommend it to all parents, and I'm sure it is great for older kids with the addition songs.

I have had this cd for a few days now and my kids love it!! My daughter needed help skip counting and this is helping her remember in a fun way. My three year old is also having fun learning as well!
