Really enjoyed this tape series. Have studied in school for years and have lived in Japan for a year and am always looking for (inexpensive) ways to keep up my Japanese. The format and content was just right. Also learned new vocabulary, as well. Level 3 was even better for me but this was also good.

There is an art to making a language learning course interesting and engaging. The art was lost on this course although it still does a decent job of teaching with lots of repetition.

I'm preparing for my trip back to Japan, and thought these tapes would help me remember what I was fluent in as a child, so I skipped the first edition. I listened to level 2 tapes a few times, and after not recognizing the words they were saying, and then realizing they were using phrases I'd never use, for example "i am not your friend", I figured out I bought the wrong tapes. The phrases are said in English first, and then in Japanese, but the Japanese is so fast that you don't have a chance to mimic the sentence, and if you do, you don't know how to break down the meaning of each part of the sentence. Maybe I should have bought level 1, but I really don't think I need to learn how to say

things they were trying to teach.I bought the 1993 version of Henry N. Raymond's cassettes, but I'm not sure the current version is any different!I've since found a great book for beginners called Japanese in 10 Minutes a Day. It is easy to learn, fun, and really does take 10 minutes a day!
